Re: Lower Passaic River; Documents for EPA Consideration

Dear Sarah:

As discussed during our meeting on January 27, 2014, we have enclosed a disk containing the documentation that EPA requested, as well as additional reference materials that Givaudan Fragrances Corporation believes should be considered by EPA and incorporated into the final Quality Assurance Project Plan for the Passaic Sediments RM 10.9 Investigation.

Please be advised that Givaudan reserves the right to, and anticipates that it will, submit additional information to EPA with respect to this matter. If you have any questions concerning the enclosed materials, please feel free to contact us. Further, please advise as to when EPA will provide the information that Givaudan specifically requested at our meeting on January 27th. Thank you.

Sincerely,

William S. Hatfield
Director
